

Brief Assessment of Impaired Cognition (BASIC)

The Danish Dementia Research Centre holds the copyright to BASIC, but the instrument may be freely used by professionals for clinical purposes – for example in general practice, in municipalities or in hospitals.

If you wish to use the instruments for research or for commercial purposes, you must contact the Danish Dementia Research Centre vide@regionh.dk and outline the purpose for which you wish to use BASIC.

If you have any questions about BASIC, please feel free to contact neuropsychologist Kasper Jørgensen: niels.kasper.joergensen@regionh.dk

If you wish to download BASIC including related materials, please [click here](#).
