

Associated researchers

(Currently employed elsewhere)

Alix Nessa Feldman

MA, PhD student, associated researcher

Her project investigates hearing loss in patients with mild cognitive impairment and the association between listening effort and cognitive function using the measurement of pupil dilation. The project also explores avenues for integration between hearing and cognitive care systems.

Linda Ruohua Feng

Associated researcher

Her project aims to validate the Cingulate Island Sign Scale for the diagnosis of Lewy Body Dementia.

Helena S. Glerup

Associated researcher

Her project investigates whether saliva can be a viable biofluid for the detection of biomarkers of neurodegenerative diseases, especially AD.
